**DATE: March 20, 2020**

**HEADLINE:  
Vertical Press Refurbishment**

**Gluco, Inc. of Jenison, Michigan Manufacture of custom vertical injection molding machines and exclusive distributor for Multiplas vertical injection molding machines is now offering a new refurbish program for plastic or EPDM rubber presses.**

**It doesn't mater the size or OEM if it's a vertical clamp Gluco can refurbish your press with the latest technology available.**

**With Gluco having 57 years of experience manufacturing and developing vertical injection molding machines, it is a natural fit for Gluco to refurbish competitors presses. New control package, updating hydraulics with servo drive, closed loop injection and special features customer requires.**

**For an example Gluco has just completed refurbishing four REP 300-ton G7 EPDM presses.**

**For more information contact Gluco at 616-457-1212**
